| 15.042 | Indian School Equalization Program |
|--------|------------------------------------|

I. PROGRAM OBJECTIVES

The ISDEAA, of which the Tribal Self-Governance Act is part, was implemented to establish meaningful Indian self-determination that will permit an orderly transition from the Federal domination of programs for, and services to, Indians to effective and meaningful participation by the Indian people in the planning, conduct, and administration of those programs and services. The Tribally Controlled Schools Act provides a grant process for the operation of schools funded by the BIE.

II. PROGRAM PROCEDURES

The ISDEAA and the Tribally Controlled Schools Act allow tribal organizations to draw down funds in advance of need. The frequency and timing of the drawdowns are set forth in the statutes. The provision for advancing funds is to ensure sufficient capital for the delivery of program services.

The Tribal Self-Governance Act provides for advance payments to tribes and tribal consortia in the form of annual or semiannual payments at the discretion of the tribes (25 USC 458cc (g)(2)). The ISDEAA provides for payments to Indian tribes and tribal organizations on a quarterly basis, in a lump-sum payment, or as semiannual payments, or any other payment method authorized by law with such method as may be requested by the tribe or tribal organization (25 USC 450l(c)(b)(6)(B)(i)). The Tribally Controlled Schools Act provides for two payments per year: the first payment to be made not later than July 1 and the second payment not later than December 1 (25 USC 2506(a)(1)).

Prior to the expenditure of these funds for the purposes for which they were intended, these funds can be invested (25 USC 450e-3). Indian tribes and tribal organizations are not accountable to BIA/BIE for the income earned from these investments (25 USC 450j(b)).

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for a Federal program, the auditor should first look to Part 2, Matrix of Compliance Requirements, to identify which of the 14 types of compliance requirements described in Part 3 are applicable and then look to Parts 3 and 4 for the details of the requirements.

B. Allowable Costs/Costs Principles

BIA programs in this Supplement that this section applies to are: Consolidated Tribal Government Program (15.021); Indian Law Enforcement (15.030); and Indian School Equalization Program (15.042).

Indian tribes and tribal organizations may without the approval of the BIA/BIE expend funds provided under a self-determination contract for purposes identified in 25 USC 450j-1(k), including the following, to the extent that the expenditure of the funds is supportive of a contracted program (25 USC 450j-1(k)).

1. Building, realty, and facilities costs, including rental costs or mortgage expenses.
2. Automated data processing and similar equipment or services.
3. Costs for capital assets and repairs.
4. Costs incurred to raise funds or contributions from non-Federal sources for the purpose of furthering the goals and objectives of the self-determination contract.
5. Interest expenses paid on capital expenditures such as buildings, building renovation or acquisition or fabrication of capital equipment, and interest expenses on loans necessitated due to delays by the Secretary in providing funds under a contract.
6. Expenses of a governing body of a tribal organization that are attributable to the management or operation of programs under ISDEAA.

H. Period of Availability of Federal Funds

BIA/BIE programs in this Supplement that this section applies to are: Consolidated Tribal Government Program (15.021); Tribal Self-Governance (15.022); Indian Law Enforcement (15.030); Indian School Equalization Program (15.042); and Indian Education Facilities, Operations, and Maintenance (15.047).

Any funds appropriated under an ISDEAA contract or compact or a Tribally Controlled Schools Act grant are available until expended (25 USC 450l(c)(b)(9)).

N. Special Tests and Provisions

Investment and Deposit of Advance Funds

BIA/BIE programs in this Supplement that this section applies to are: Consolidated Tribal Government Program (15.021); Tribal Self-Governance (15.022); Indian Law Enforcement (15.030); and Indian School Equalization Program (15.042).

Compliance Requirement - A tribe, tribal organization, or consortia receiving advance payments under the ISDEAA or the Tribally Controlled Schools Act may invest advance payments (some recipients refer to these advance payments as “deferred revenue”), before such funds are expended for the purposes of the grant, contract, or funding agreement, so long as such funds are (1) invested only in obligations of the United States or in obligations or securities that are guaranteed or insured by the United States, or mutual (or other) funds registered with the Securities and Exchange Commission and which only invest in obligations of the United States or securities that are guaranteed or insured by the United States or (2) deposited only in accounts that are insured by an agency or instrumentality of the United States, or are fully collateralized to ensure protection of the advance funds, even in the event of a bank failure (25 USC 450e-3).

Audit Objective - Determine whether Indian tribes, tribal organizations, or consortia are properly investing or depositing advanced ISDEAA or the Tribally Controlled Schools Act funds.

Suggested Audit Procedures

- a. Obtain and review tribal policies and procedures for the investment and deposit of ISDEAA or the Tribally Controlled Schools Act funds and verify that those procedures comply with the investment and deposit requirements.
- b. Review unused/unexpended BIA/BIE advance funds and verify that all unused/unexpended funds were properly invested or deposited throughout the audit period.

DEPARTMENT OF THE INTERIOR

CFDA 15.021 CONSOLIDATED TRIBAL GOVERNMENT PROGRAM

I. PROGRAM OBJECTIVES

The objective of the Consolidated Tribal Government Program is to provide funds for certain programs of an ongoing nature to Indian tribal governments in a manner which minimizes program administrative requirements and maximizes flexibility.

II. PROGRAM PROCEDURES

The Bureau of Indian Affairs (BIA) makes direct payments to federally recognized Indian tribal governments to carry out a variety of activities for which appropriations are made within the Tribal Priority Allocations activity of the BIA budget. For example, Scholarships, Johnson O'Malley, Job Placement and Training, and Agricultural Extension could be combined under a single contract for education and training. This allows tribal contractors greater flexibility in planning their programs and meeting the needs of their people. The simplified contracting procedures and reduction of tribal administrative costs allow for increased services under these contracts.

Source of Governing Requirements

The program is authorized by the Indian Self-Determination and Education Assistance Act (ISDEAA), Title I, Pub. L. No. 93-638, as amended (25 USC 450 *et seq.*).

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for a Federal program, the auditor should first look at Part 2, Matrix of Compliance Requirements, to identify which of the 14 types of compliance requirements described in Part 3 are applicable and then look to Parts 3 and 4 for the details of the requirements.

Certain compliance requirements that apply to multiple BIA and Bureau of Indian Education (BIE) programs are discussed once in the BIA/BIE Cross-Cutting Section of this Supplement (page 4-15.000-1) rather than being repeated in each individual program.

A. Activities Allowed or Unallowed

The ISDEAA provides for the expenditure of funds by Indian tribes and tribal organizations under self-determination contracts for programs and activities previously provided by the BIA. Funds may be used for a variety of programs and services that the Federal Government otherwise would have provided directly. The specific activities allowed will be indicated in the self-determination contract between the tribal organization and the Secretary of the Interior (25 USC 450f). While the tribe or tribal organization may propose to redesign the program or activity, such redesign must be approved by the BIA (25 USC 450j(j)).

CFDA 15.022 TRIBAL SELF-GOVERNANCE

I. PROGRAM OBJECTIVES

The objective of the Tribal Self-Governance program is to further the goals of Indian self-determination by providing funds to Indian tribes to administer a wide range of programs with maximum administrative and programmatic flexibility.

II. PROGRAM PROCEDURES

The Tribal Self-Governance Act of 1994 (25 USC 458aa *et seq.*) established tribal self-governance as a permanent option for tribal governments. Under tribal self-governance, Indian tribes have greater control and flexibility in the use of funds, reduced reporting requirements, and authority to redesign or consolidate programs, services, functions, and activities. Tribes are selected from an applicant pool upon meeting certain eligibility requirements.

The Office of Self-Governance makes direct payments to federally recognized Indian tribal governments and tribal consortia authorized by federally recognized Indian tribal governments. Funds may be used to support tribal programs such as law enforcement, social services, welfare payments, natural resource management and enhancement, housing improvement, and road maintenance (25 USC 458cc(b)).

Source of Governing Requirements

The program is authorized by the Indian Self-Determination and Education Assistance Act (ISDEAA), Title IV, Pub. L. No. 93-638, as amended (25 USC 458aa *et seq.*).

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for a Federal program, the auditor should first look at Part 2, Matrix of Compliance Requirements, to identify which of the 14 types of compliance requirements described in Part 3 are applicable and then look to Parts 3 and 4 for the details of the requirements.

Certain compliance requirements that apply to multiple Bureau of Indian Affairs (BIA) and Bureau of Indian Education (BIE) programs are discussed once in the BIA/BIE Cross-Cutting Section of this Supplement (page 4-15.000-1) rather than being repeated in each individual program.

A. Activities Allowed or Unallowed

The ISDEAA provides for the expenditure of funds by Indian tribes and tribal organizations under self-determination contracts or annual funding agreements for programs and activities previously provided by the BIA. Funds may be used for a variety of programs and services that the Federal Government otherwise would have provided

directly. The specific activities allowed will be indicated in the funding agreement between the tribal organization and the Secretary of the Interior (25 USC 458cc(b) and (c)). Indian tribes and tribal consortia are provided latitude in redesigning programs and activities. However, such redesign is limited to programs covered by the annual funding agreement (25 USC 458cc(b)(3)).

II. PROGRAM PROCEDURES

The Bureau of Indian Affairs (BIA) makes direct payments to federally recognized Indian tribal governments exercising Federal criminal law enforcement authority over crime under the Major Crimes Act (18 USC 1153) on their reservations. Source of Governing Requirements

The program is authorized by the Indian Self-Determination and Education Assistance Act (ISDEAA), Pub. L. No. 93-638, as amended (25 USC 450 *et seq.*) and the Indian Law Enforcement Reform Act, Pub. L. No. 101-379 (25 USC 2801 *et seq.*).

Availability of Other Program Information

Part 40 of the Indian Affairs Manual provides information applicable to all law enforcement programs operated by an Indian tribe or tribal organization under a Self-Determination contract. Part 40 does not apply to Indian tribes which have negotiated Self-Governance compacts. The website at which this manual has been available is not currently operational.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for a Federal program, the auditor should first look at Part 2, Matrix of Compliance Requirements, to identify which of the 14 types of compliance requirements described in Part 3 are applicable and then look to Parts 3 and 4 for the details of the requirements.

Certain compliance requirements that apply to multiple BIA and Bureau of Indian Education (BIE) programs are discussed once in the BIA/BIE Cross-Cutting Section of this Supplement (page 4-15.000-1) rather than being repeated in each individual program.

The BLM provides funds and assistance to a wide variety of entities through grants and cooperative agreements. All public land users' benefit through the projects and the associated activities performed under these programs. Although there is no matching requirement for this program, except as stated below (see III.G.1.b, Matching) many recipients contribute resources to accomplish program objectives which must be clearly stated in the application.

All projects funded under the Environmental Quality and Protection Resource Management program are restricted to lands administered by the BLM unless other specific legislative authority exists. Most of these lands are located in the Western United States and Alaska. Assistance can be used for helping or coordinating projects with the BLM for the Hazard Management and Resource Restoration program, the Abandoned Mine Lands program, and the Soil, Water and Air program.

CFDA 15.605 SPORT FISH RESTORATION PROGRAM

CFDA 15.611 WILDLIFE RESTORATION AND BASIC HUNTER EDUCATION

I. PROGRAM OBJECTIVES

The objective of the Sport Fish Restoration Program is to restore, conserve, and enhance sport fish populations and to provide for public use and enjoyment of these fishery resources.

The objective of the Wildlife Restoration and Basic Hunter Education Program (Wildlife Restoration Program) is to restore, conserve, and enhance wildlife populations, provide for public use and enjoyment of these resources, and to provide training to hunters and archers in skills, knowledge, and attitudes necessary to be responsible hunters or archers.

II. PROGRAM PROCEDURES

The U.S. Fish and Wildlife Service (FWS) makes program and project grants to the fish and wildlife agencies of the 50 States, District of Columbia (not eligible to receive Wildlife Restoration Program funding), Commonwealths of Puerto Rico and the Northern Mariana Islands, and territories of Guam, U.S. Virgin Islands, and American Samoa (collectively referred as “State” or “States”) with funds apportioned to each State through a statutory formula. States may submit either a comprehensive plan or project proposal to FWS. When either is approved, any of the 50 States generally can be paid up to 75 percent of the cost of the work performed. The District of Columbia, Commonwealths, and territories may receive up to 100 percent with Regional Director approval.

The Sport Fish Restoration Program has three subprograms: the Sport Fish Restoration—Recreational Boating Access subprogram; the Sport Fish Restoration—Aquatic Resources Education subprogram; and the Sport Fish Restoration—Outreach and Communication subprogram. Definitions of terms applicable to this program are listed in 50 CFR section 80.2, including the definition of “sport fish.”

The Wildlife Restoration Program has two subprograms: the Wildlife Restoration—Basic Hunter Education and Safety subprogram; and the Enhanced Hunter Education and Safety program. Definitions of terms applicable to this program are listed in 50 CFR section 80.2, including the definition of “wildlife.”

Source of Governing Requirements

The Sport Fish Restoration Program is authorized by the Sport Fish Restoration (Dingell-Johnson) Act (16 USC 777 through 777n, except 777e-1 and 777g-1). The Wildlife Restoration Program is authorized by the Wildlife Restoration (Pittman-Robertson) Act (16 USC 669 through 669k). Program regulations are at 50 CFR part 80. Program guidance is available in the FWS Manual chapters pertaining to Federal Financial Assistance and Wildlife and Sport Fish Restoration grants—Chapters 516 FW through 523 FW.

Availability of Other Program Information

Other program information is available on the FWS Grant Information site at <http://wsfrprograms.fws.gov/Subpages/GrantPrograms/GrantProgramsIndex.htm>, and at <http://wsfrprograms.fws.gov/Subpages/ToolkitFiles/toolkit.pdf>. The FWS Manual is available on at <http://www.fws.gov/policy/manuals/>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for a Federal program, the auditor should first look at Part 2, Matrix of Compliance Requirements, to identify which of the 14 types of compliance requirements described in Part 3 are applicable and then look to Parts 3 and 4 for the details of the requirements.

A. Activities Allowed or Unallowed

1. *Wildlife Restoration – Allowable Activities*
 - a. Activities eligible for funding under the Wildlife Restoration program include:
 - (1) Restoring and managing wildlife, including research and obtaining data needed to administer wildlife resources, for the benefit of the public;
 - (2) Acquiring real property for wildlife habitat or public access;
 - (3) Restoring, rehabilitating, improving, or managing wildlife habitat; and
 - (4) Supporting activities such as building structures, operation and maintenance, and coordination (50 CFR section 80.50(a)).
 - b. Activities eligible for funding under the Wildlife Restoration—Basic Hunter Education and Safety subprogram include developing responsible hunters and public firearm and archery ranges (50 CFR section 80.50(b)).
 - c. Activities eligible for funding under the Enhanced Hunter Education and Safety program include introduction and recruitment into hunting and shooting sports, interstate coordination, and enhanced construction and safety of firearm and archery ranges (50 CFR section 80.50(c)).

2. *Sport Fish Restoration – Allowable Activities*
 - a. Activities eligible for funding under the Sport Fish Restoration program include:
 - (1) Restoring and managing sport fish, including research and obtaining data needed to administer wildlife resources, for the benefit of the public;
 - (2) Plans and activities for stocking and restocking;
 - (3) Acquiring real property for sport fish habitat or public access;
 - (4) Restoring, rehabilitating, improving, or managing sport fish habitat;
 - (5) Constructing, operating, and maintaining pumpout and dump stations; and
 - (6) Supporting activities such as building structures, operation and maintenance, and coordination (50 CFR section 80.51(a)).
 - b. Activities eligible for funding under the Sport Fish Restoration—Recreational Boating Access subprogram include acquiring land and building recreational boating access facilities and conducting surveys (50 CFR section 80.51(b)).
 - c. Activities eligible for funding under the Sport Fish Restoration—Aquatic Resources Education subprogram include enhancing public understanding of aquatic resources (50 CFR section 80.51(c)).
 - d. Activities eligible for funding under the Sport Fish Restoration—Outreach and Communication subprogram include improving communication with the recreational boating and fishing communities, increase participation and promote responsibility (50 CFR section 80.51(d)).
3. *Unallowable Activities* – The following activities are unallowable except when necessary to carry out project purposes approved by the FWS Regional Director:
 - a. Law enforcement activities (50 CFR section 80.54(a)).
 - b. Public relations activities to promote the State fish and wildlife agency or any other State entity (50 CFR section 80.54(b)).
 - c. Activities primarily for producing income (50 CFR section 80.54(c)).
 - d. Activities that oppose regulated fishing, hunting or trapping (50 CFR section 80.54(d)).

F. Equipment and Real Property Management

Real property acquired or constructed with Wildlife Restoration Program or Sport Fish Restoration Program funds shall continue to serve the purpose for which it was acquired or constructed. Where grant funds are used for a capital improvement, a State fish and wildlife agency must have control adequate for the protection, maintenance, and use of the capital improvement for its authorized purpose during its useful life even if the agency did not acquire the land with grant funds. When property passes from management control of the State fish and wildlife agency or the State fish and wildlife agency allows use of real property that interferes with its authorized purpose, the control shall be fully restored to the State fish and wildlife agency or the real property shall be replaced using non-Federal funds. If the State fish and wildlife agency and the Regional Director jointly decide grant-funded real property is not needed for its original purpose, the real property must be used for another eligible purpose or the State fish and wildlife agency must dispose of the property (50 CFR part 80, subpart J).

G. Matching, Level of Effort, Earmarking**1. Matching**

- a. The Federal share is at least 10 percent and up to 75 percent of allowable costs of the grant-funded project for the 50 States. The specific amount will be in the approved grant award. The Federal cost sharing for the Commonwealths of Puerto Rico and the Northern Mariana Islands, the District of Columbia (not eligible to receive Wildlife Restoration Program funding), and the territories of Guam, the U.S. Virgin Islands, and American Samoa may be from 75 to 100 percent of the allowable costs of a grant-funded project as decided by the Regional Director (50 CFR section 80.83).
- b. The State fish and wildlife agency must not draw down Federal funds in a greater proportion to the use of match than total Federal funds bear to total match unless:
 - (1) The drawdown is to pay for construction, including land acquisition;
 - (2) An in-kind contribution is not yet available for delivery to the grantee or subgrantee; or
 - (3) The project is not at the point where it can accommodate an in-kind contribution.

The conditions above require the Regional Director's prior approval and the State must satisfy the match requirement before it submits the final Federal Financial Report (50 CFR section 80.96(a)).

2. Level of Effort – Not Applicable

3. Earmarking

- a. *Indirect Costs Limitation* – The amount of overhead or indirect costs charged to the projects under these programs for State central services provided from outside the State fish and game agency in one year may not exceed three percent of the annual apportionment to the State (50 CFR section 80.53).
- b. *Aquatic Resource Education and Outreach and Communication* – Each State's fish and wildlife agency may not spend more than 15 percent of the annual amount apportioned to the State from the Sport Fish Restoration and Boating Trust Fund for activities in both subprograms. The 15-percent maximum applies to both subprograms as if they were one. The Commonwealths of Puerto Rico and the Northern Mariana Islands, the District of Columbia, and the territories of Guam, the U.S. Virgin Islands, and American Samoa are not limited to the 15-percent cap imposed on the 50 States. Each of these entities may spend more for these purposes with the approval of the Regional Director (50 CFR section 80.62).
- c. *Recreational Boating Access* – A State fish and wildlife agency must allocate 15 percent of its annual allocation for the Recreational Boating Access subprogram. Allocations of more or less than 15 percent require the approval of the Regional Director (50 CFR section 80.61).

H. Period of Availability of Federal Funds

Multi-year Financing Exception – States may finance high-cost projects, such as the acquisition of land and the construction of facilities, using funding from more than one annual apportionment through financing the entire cost and obtaining reimbursement from future grants or installment purchases (50 CFR sections 80.67 and 80.68).

J. Program Income

The State must treat income it earns after the grant period as license revenue or additional funding for grant purposes. The State must indicate how it will treat program income in the grant application or the default is to treat it as license revenue. States must treat income earned by a subgrantee after the grant period as license revenue, additional funding for grant purposes, or income subject to terms of a subgrantee agreement or contract. The State must indicate its choice in the project statement for the subgrant. If the State does not, the subgrantee does not have to account for any income it earns after the grant period unless required by an agreement or contract (50 CFR sections 80.125 and 80.126).

L. Reporting

1. Financial Reporting

- a. SF-270, *Request for Advance or Reimbursement* – Applicable
- b. SF-271, *Outlay Report and Request for Reimbursement for Construction Programs* – Not Applicable
- c. SF-425, *Federal Financial Report* – Applicable

2. Performance Reporting – Not Applicable

3. Special Reporting

Form 3-154A and 3-154B, Paid Hunting and Fishing License Certification (OMB Approval No.1018-0007) – The Director of each State fish and wildlife agency must certify annually the number of paid hunting and fishing license holders in the State. States count licenses over a period of 12 consecutive months, according to the State's fiscal year, or other license year, but the period must be consistent from year to year. The certification period must end at least 1 year and no more than 2 years before the beginning of the Federal fiscal year in which the apportioned funds first became available. The data are used by FWS in statutory formulas to apportion funds to States. The State must (a) count only those people who have a license issued and for which the State can document at least \$1 of net revenue; (b) eliminate multiple counting of the same individual in the certified figures; and (c) may be required to demonstrate methods used to determine data. Sampling and other statistical techniques may be used as long as they are done every 5 years or coordinated with any changes in the State system (50 CFR sections 80.31 and 80.32).

For purposes of reporting, the State counts a person who possesses a paid license issued in the licensee's name or other unique identifier by following the table in 50 CFR section 80.33 to determine the type of license holder that may be counted and how often they may be counted. The license certification must not include:

- a. Trapping licenses or commercial licenses (50 CFR section 80.33(b)(8)).
- b. Licenses issued by another State (50 CFR section 80.31).
- c. Multiyear licenses that do not produce net revenue in close approximation to the net revenue received for a single-year license providing similar privileges. The State may collect the revenue at the time of sale or annually (50 CFR section 80.35).

- d. However, if a State fish and wildlife agency receives funds from the State to cover fees for some license holders, the agency may count those license holders in the annual certification only under the following conditions:
- (1) The State funds to cover license fees must come from a source other than hunting- and fishing-license revenue;
 - (2) The State must identify funds to cover license fees separately from other funds provided to the agency;
 - (3) The agency must receive at least the average amount of State-provided discretionary funds that it received for the administration of the State's fish and wildlife agency during the State's 5 previous fiscal years;
 - (4) The agency must receive State funds that are at least equal to the fees charged for the single-year license providing similar privileges;
 - (5) If the State does not have a single-year license providing similar privileges, the Director must approve the fee paid by the State for those license holders; and
 - (6) The agency must issue licenses in the license holder's name or by using a unique identifier that is traceable to the license holder, who must be verifiable in State records (50 CFR section 80.36).

4. Section 1512 ARRA Reporting – Not Applicable

5. Subaward Reporting under the Transparency Act – Applicable

N. Special Tests and Provisions

Assent Legislation and Diversion of License Revenue

Compliance Requirement – A State may participate in the benefits of the Sport Fish Restoration and Wildlife Restoration Programs only if it has passed and maintains legislation that assents to the provisions of the Acts; ensures the conservation of fish and wildlife; and prohibits the diversion of license revenue paid by hunters and sport fishermen to purposes other than for the administration of the fish and wildlife agency (50 CFR sections 80.10 and 80.11).

License revenue includes proceeds from State-issued general or special hunting and fishing licenses, permits, stamps, tags, access and use fees, and other State charges to hunt or fish for recreational purposes. Also included in license revenue are real or personal property acquired with license revenue; income from the sale, lease or rental of, granting rights to, or a fee for access to, real or personal property acquired or constructed

with license revenue; interest or dividends earned on license revenue; reimbursements for expenditures originally paid for with license revenue; and payments received for services funded by license revenue (50 CFR section 80.20).

Administration of the State fish and wildlife agency includes only the functions required to manage the agency and the fish- and wildlife-related resources for which the agency has authority under State law (50 CFR section 80.10(c)(2)).

Audit Objective – Determine whether license revenue paid by sport hunters and anglers are used only for the administration of the State fish and wildlife agency.

Suggested Audit Procedures

1. Ascertain if there are legislative prohibitions in place to prevent diversion of license revenues.
2. Perform tests to ascertain if hunting and sport fishing license revenue was properly accounted for and restricted to use for the administration of the State fish and wildlife agency.
3. Test expenditures from the license revenue paid by hunters and sport fisherman to ascertain if they were used for the administration of the State fish and wildlife agency.
4. Perform procedures to ascertain if there were any transfers from the State fish and wildlife agency that divert license revenue paid by hunters and sport fisherman from the administration of the State fish and wildlife agency.

DEPARTMENT OF THE INTERIOR

CFDA 15.614 COASTAL WETLANDS PLANNING, PROTECTION AND RESTORATION ACT (National Coastal Wetlands Conservation Grants)

I. PROGRAM OBJECTIVES

The objective of the National Coastal Wetlands Conservation Grant program is to provide funds to coastal States (except Louisiana) for coastal wetlands conservation projects. The primary goal of the National Coastal Wetlands Conservation Grant Program is the long-term conservation of coastal wetland ecosystems. It accomplishes this goal by helping States in their efforts to protect, restore, and enhance their coastal habitats. The program's accomplishments are primarily on-the-ground and measured in acres.

II. PROGRAM PROCEDURES

The National Coastal Wetlands Conservation Grant Program provides funds on a competitive basis for acquisition of interests in coastal lands or waters, and for restoration, enhancement or management of coastal wetlands ecosystems. All coastal States except Louisiana are eligible to apply. Proposed projects must provide for long-term conservation of coastal wetlands or waters and the hydrology, water quality, and fish and wildlife dependent thereon (16 USC 3954; 50 CFR section 84.11). Use of property acquired with grant funds that is inconsistent with program requirements and that is not corrected can be grounds for denying a State future grants under this program (50 CFR section 84.48(a)(6)).

Source of Governing Requirements

The National Coastal Wetlands Conservation Grant program is authorized by Section 305, Title III, Pub. L. 101-646, 16 USC 3951-3956. The National Coastal Wetlands Conservation Grant program regulations are at 50 CFR part 84.

Availability of Other Program Information

Other program information for Coastal Wetlands Planning, Protection and Restoration Act is found at <https://www.fws.gov/coastal/CoastalGrants/>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for a Federal program, the auditor should first look to Part 2, Matrix of Compliance Requirements, to identify which of the 14 types of compliance requirements described in Part 3 are applicable and then look to Parts 3 and 4 for the details of the requirements.

A. Activities Allowed or Unallowed

1. *Activities Allowed*

- a. Acquisition of a real property interest in coastal lands or waters from willing sellers or partners (coastal wetlands ecosystems), under terms and conditions that will ensure the real property will be administered for long-term conservation (50 CFR section 84.20(a)(1)).
- b. The restoration, enhancement, or management of coastal wetlands ecosystems (50 CFR section 84.20(a)(2)).
- c. Planning as a minimal component of project plan development (50 CFR section 84.20(b)(6)) (see III.A.2.f. for unallowable planning activities).

2. *Activities Unallowed*

- a. Projects that primarily benefit navigation, irrigation, flood control, or mariculture (50 CFR section 84.20(b)(1)).
- b. Acquisition, restoration, enhancement, or management of lands to mitigate recent or pending habitat losses resulting from the actions of agencies, organizations, companies, or individuals (50 CFR section 84.20(b)(2)).
- c. Creation of wetlands by humans where wetlands did not previously exist (50 CFR section 84.20(b)(3)).
- d. Enforcement of fish and wildlife laws and regulations, except when necessary for the accomplishment of approved project purposes (50 CFR section 84.20(b)(4)).
- e. Research (50 CFR section 84.20(b)(5)).
- f. Planning as a primary project focus (50 CFR section 84.20(b)(6)).
- g. Operations and maintenance (50 CFR section 84.20(b)(7)).
- h. Acquiring and/or restoring upper portions of watersheds where benefits to the coastal wetlands ecosystem are not significant and direct (50 CFR section 84.20(b)(8)).
- i. Projects providing less than 20 years of conservation benefits (50 CFR section 84.20(b)(9)).

F. Equipment and Real Property Management

States must submit documentation (e.g., appraisals and appraisal reviews) to the Fish and Wildlife Service (FWS) Regional Director who must approve it before the State becomes legally obligated for the purchase. States must provide title vesting evidence and summary of land costs upon completion of the acquisition to the FWS Regional Director. Any deed to third parties (e.g., conservation easement or other lien on a third-party property) must include appropriate language to ensure that the lands and/or interests would revert back to the State or Federal Government if the conditions of the grant are no longer being implemented (50 CFR section 84.48(a)(1)).

G. Matching, Level of Effort, Earmarking

1. Matching

- a. Except for those insular areas specified in paragraph G.1.b, the Federal share will not exceed 50 percent of approved costs incurred. However, the Federal share may be increased to 75 percent for coastal States that have established and are using a fund as defined in 50 CFR section 84.11. The FWS Service Regional Directors must certify the eligibility of the fund in order for the State to qualify for the 75 percent matching share (50 CFR section 84.46(a)).
- b. The following insular areas: American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands, have been exempted from the matching share, as provided in Pub. L. 95-134, as amended by Pub. L. 95-348, Pub. L. 96-205, Pub. L. 98-213, and Pub. L. 98-454 (48 USC 1469a). Puerto Rico is not exempt from the match requirements of this program (50 CFR section 84.46(b)).
- c. Total Federal contributions (including all Federal sources outside of the program) may not exceed the maximum eligible Federal share under the Program. This includes monies provided to the State by other Federal programs. If the amount of Federal money available to the project is more than the maximum allowed, FWS will reduce the program contribution by the amount in excess (50 CFR section 84.46(h)).
- d. Natural Resource Damage Assessment funds that are managed by a non-Federal trustee are considered to be non-Federal, even if these monies were once deposited in the Department of the Interior's Natural Resource Damage Assessment and Restoration Fund, provided the following criteria are met:
 - (1) The monies were deposited pursuant to a joint and indivisible recovery by the Department of the Interior and non-Federal trustees under the Comprehensive Environmental Response,

Compensation, and Liability Act (CERCLA) or the Oil Pollution Act (OPA);

- (2) The non-Federal trustee has joint and binding control over the funds;
- (3) The co-trustees agree that monies from the fund should be available to the non-Federal trustee and can be used as a non-Federal match to support a project consistent with the settlement agreement, CERCLA, and OPA; and

N. Special Tests and Provisions

1. Trust Fund

Compliance Requirement – The Federal share may be increased to 75 percent for coastal States that have established and are using a “fund” as defined in 50 CFR section 84.11. The fund can be a trust fund from which the principal is not spent, or a fund derived from a dedicated recurring source of monies (50 CFR section 84.46).

Audit Objectives – For States that have established and are using a trust fund, determine whether principal and interest are properly accounted for. For States with a dedicated recurring source of monies, examine collection and restrictions to determine if all funds are properly accounted for.

Suggested Audit Procedures

- a. Perform tests to ascertain if restricted funds were properly collected (retained) and accounted for.
- b. Test expenditures to ascertain if trust funds or dedicated funds were used by the State according to the reported purpose.

2. Operation and Maintenance of Facilities

Compliance Requirement – The coastal States must operate and maintain facilities, structures, or related assets to ensure their use for the stated project purpose and must adequately protect them. If acquired property is used for reasons inconsistent with the purpose(s) for which acquired, such activities must cease and any adverse effects on the property must be corrected by the State or subgrantee with non-Federal monies in accordance with 50 CFR section 80.14 (50 CFR sections 84.48(a)(3) and (b)(3)).

Audit Objective – Determine whether coastal State operation and maintenance procedures ensure that program assets are identified, adequately maintained, protected, and used for stated project purposes.

Suggested Audit Procedures

- a. Review property management procedures, and assess their adequacy for identifying and protecting program assets. This includes policies and procedures for addressing the operations and maintenance of the asset.
- b. Determine if property inventories or lists of program assets reconcile with grant agreements and stated project purposes.

DEPARTMENT OF THE INTERIOR**CFDA 15.615 COOPERATIVE ENDANGERED SPECIES CONSERVATION FUND****I. PROGRAM OBJECTIVES**

The objective of the Cooperative Endangered Species Conservation Fund program is to provide Federal financial assistance to a State or territory, through its appropriate State or territorial agency, to assist in the development of programs for the conservation of federally listed endangered and threatened species.

II. PROGRAM PROCEDURES

Grants for States and territories, offered through the Cooperative Endangered Species Conservation Fund, provide funding for a wide array of voluntary conservation projects for candidate, and listed, threatened and endangered species. Grants awarded are in the categories of: Conservation Grants for the implementation of conservation projects; Recovery Land Acquisition for the acquisition of habitat in support of approved species recovery goals or objectives; Habitat Conservation Planning Assistance to support development of Habitat Conservation Plans (HCPs); and HCP Land Acquisition for the acquisition of land associated with approved HCPs. These funds may in turn be subawarded by States and territories in support of conservation projects.

Source of Governing Requirements

The Cooperative Endangered Species Conservation Fund is authorized by the Endangered Species Act of 1973, as amended, 16 USC 1531 to 1543; and the Land and Water Conservation Fund Act of 1965, 16 U.S.C. 4601, as amended. Program regulations are at 50 CFR part 81. Program guidance is available in the Fish and Wildlife Service (FWS) Manual chapters pertaining to Cooperative Endangered Species Conservation Fund grants—Chapters 521 FW and 523 FW.

Availability of Other Program Information

Program information for endangered species grants to States and territories is available on the FWS website at <http://www.fws.gov/endangered/grants/index.html>. The FWS Manual is available at <http://wsfrprograms.fws.gov/Subpages/ToolkitFiles/toolkit.pdf>.

DEPARTMENT OF THE INTERIOR

CFDA 15.668 COASTAL IMPACT ASSISTANCE PROGRAM

I. PROGRAM OBJECTIVES

The objective of the Coastal Impact Assistance Program (CIAP) program is the conservation, protection, and preservation of coastal areas, including wetlands.

II. PROGRAM PROCEDURES

The U.S. Department of the Interior (DOI), Fish and Wildlife Service (FWS), Wildlife and Sport Fish Restoration Program (WSFR) administers the CIAP program through individual non-competitive grants awarded directly to States and those coastal political subdivisions (CPS) specifically identified in the Act.

Grants are administered by a CIAP Branch Chief and a CIAP Grants Team located at FWS-WSFR Headquarters in Arlington, Virginia. Other program officials are located in Spanish Fort, Alabama; Anchorage, Alaska; Baton Rouge, Louisiana; Biloxi, Mississippi; and Austin, Texas; and provide technical assistance and program guidance for projects in their respective States.

Funds are distributed to OCS oil- and gas-producing States (which include Alabama, Mississippi, Louisiana, Texas, California, and Alaska), and CPSs (which include specific coastal counties, boroughs, and parishes) within those States. The CIAP funding allocations are made using the formulas mandated by Section 31 of the Outer Continental Shelf Lands Act (43 USC 1356a). Funds were allocated to each recipient using qualified OCS revenues received during a specified fiscal year. The Act requires a minimum annual allocation of 1 percent to each State, and provides that 35 percent of each State's share be allocated directly to its CPSs. A State or CPS may not receive less than its allocation unless FWS finds that the proposed uses of funds are inconsistent with the Act, or if a State or CPS chooses to relinquish some or all of its allotted funds.

Source of Governing Requirements

The program is authorized by Section 31 of the Outer Continental Shelf Lands Act (43 USC 1356a).

Availability of Other Program Information

Other program information is available on the CIAP website at <http://wsfrprograms.fws.gov/Subpages/GrantPrograms/CIAP/CIAP.htm>.

III. COMPLIANCE REQUIREMENTS

In developing the audit procedures to test compliance with the requirements for a Federal program, the auditor should first look at Part 2, Matrix of Compliance Requirements, to identify which of the 14 types of compliance requirements described in Part 3 are applicable and then look to Parts 3 and 4 for the details of the requirements.

A. Activities Allowed or Unallowed

1. A State or CPS must use CIAP funds only for one or more of the following activities:
 - a. Conservation, protection, or restoration of coastal areas, including wetlands;
 - b. Mitigation of damage to fish, wildlife, or natural resources;
 - c. Planning and the administrative costs of complying with CIAP (see III.G.3 for limitation on amounts that may be expended for this purpose);
 - d. Implementation of a federally approved marine, coastal, or comprehensive conservation management plan; and
 - e. Mitigation of the impact of OCS activities through funding of onshore infrastructure projects and public service needs (see III.G.3 for limitation on amounts that may be expended for this purpose).
2. The above activities are designed to benefit the coastal zone; however CIAP projects do not need to be undertaken solely within a State's coastal zone (43 USC 1356a(d)(1)).

G. Matching, Level of Effort, Earmarking

1. **Matching** – Not Applicable
2. **Level of Effort** – Not Applicable
3. **Earmarking**

Not more than 23 percent of the amounts received by a State or CPS can be used for:

- a. Planning assistance and the administrative costs of complying with CIAP; and
- b. Mitigation of the impact of OCS activities through funding of onshore infrastructure projects and public service needs (43 USC 1356a(d)(3)).

IV. OTHER INFORMATION

Effective October 1, 2011, program responsibility was transferred from the Bureau of Ocean Energy Management, Regulation and Enforcement (BOEMRE) to FWS-WSFR. As a result of this change, the CFDA number was changed from 15.426 to 15.668. Since recipients' funding periods may not coincide with the change in CFDA number, recipients should include the CFDA number shown on their notices of award (whether 15.426 and/or 15.668) in completing the Schedule of Expenditures of Federal Awards (SEFA). When awards from both CFDA 15.426 and CFDA 15.668 are present, they should be combined when determining Type A programs. If the program was a major program under CFDA 15.426 in either of the previous 2 years, the provision in the risk-based approach for prior audits is considered to have been met.
