Dear Office of Information and Regulatory Affairs Hunt:

The Constitution of the United States guarantees the equality of all citizens. Although all citizens do not benefit from the same health care and life style, it has always been the goal to help them achieve it. •

The "OMB Draft Guidelines for the Conduct of Regulatory Analysis and the Format of Accounting Statements" determines that saving the life of an elderly person is worth less than saving the life of a younger person.. This raises serious ethical and scientific questions.

•If analysis is fully applied, regulations for air pollution, toxic waste cleanup, food labeling and other quality of life issues could be weakened or not even implemented at all.

Please eliminate the OMB Draft Guidelines.
